

	to water main Comes with heat recovery and suction fan for steam extraction so that machine does not require exhaust canopy/direct exhaust connection Electrical connections (potential free contacts) for on-site ventilation System to reduce rinse aid use deduces rinse aid costs up to 70% Hinged doors provide easy access to wash arms Generous passing height of 508 mm gets even bulky items of dishware sparkling clean
Engineering / MEP Ratings	 Voltage 400V/3NPE/50Hz Connecting Load 36.2 kW Nominal Current 57.3 A Final rinse water consumption: 260 l/h Water inlet connection: DN 20 Combined single Drainage point connection: DN 70 Exhaust requirement: 150 m³/h
Capacity	 170/260/340 baskets/hr. 170 Basket/h with 2 min. water contact time according DIN SPEC 10534
Sanitation	Entirely corresponds to the regulations of DIN SPEC 10534 for industrial dishwashing with multi-tank transport dish washing machines Main wash section(s) $55^{\circ}\text{C} - 65^{\circ}\text{C}$ Pump rinse section $60^{\circ}\text{C} - 70^{\circ}\text{C}$ Final rinse section $80^{\circ}\text{C} - 85^{\circ}\text{C}$
Accessories	 Table End Switch Emergency Stop Heat Recovery System Drying zone (Optional)
Safety	- CE (European Standard) - DIN SPEC 10534
Special Requirement	 Water Hardness max. 3°dh or approx. 50 ppm Direct or indirect exhaust air connection is not necessary On site general room ventilation need to be guaranteed
