

# MINING COMPLIMENT

The "Wieliczka" Salt Mine is one of the most valuable monuments of material and spiritual culture in Poland.

Each year it is visited by more than one million tourists from all over the world

It is also a world class monument, featuring among twelve objects on UNESCO's World Cultural and Natural Heritage List.

The salt deposits were laid down 13. 6 million years ago and the mine is a product of work of tens of generations of miners. It is considered a monument to the history of Poland and to the Polish nation. More detail at: [www.wieliczka-saltmine.com](http://www.wieliczka-saltmine.com)

Meiko equipment is to be found 125 meters underground where they are working in an environment where there is salt, but everything works correctly.

Managing Director of catering Services is Marcin Mlostek:

"Wieliczka Salt Mine would like to our hereby express our deep satisfaction with Meiko Clean Solutions Polska for delivery of warewashing equipment.

"Over the past 13 years, the mine has bought 10 dishwashers, the majority of which are used virtually every day. The quality of products and the performance of Meiko product we rate as very high.

"Nowadays in the foodservice industry quality, workmanship and economy of use are the most important elements of the operation.

"We would like to draw attention to the extensive service network, which is at the highest level, works quickly, reliably and efficiently, which facilitates the proper functioning of our business.

"We recommend the products of Meiko company, they are trustworthy and the company provides their services professionally and fairly. The whole course of the past co-operation allows us to perceive the Meiko as a partner, who treats its obligations to the customer in an appropriate manner.

"We expect our cooperation will continue to be fruitful and we wish Meiko all success!"
